went to local hospital, literally no lines nothing but empy tent,
video: empty hospital in italy, https://www.youtube.com/watch?v=VU-79l52oDo [Embed]

and in lockdown USA no pandemic at hospital

https://www.youtube.com/watch?v=N94T_nKMKM4 [Embed]

there is no surge of sickness, no surge in yearly death count, world wide or in any country, this pandemic is based on asymptomatic cases testing positive on a meaningless test

China has no new cases because the changed the test, now the test is designed to not detect anything , thus phasing out the hoax.

https://www.cnn.com/2020/02/21/health/coronavirus-reported-cases-covid-19-change-intl/index.html

he World Health Organization (WHO) reacted to the change in their Friday situation report, noting: "Some previously reported 'clinically diagnosed' cases are thus expected to be discarded over the coming days as laboratory testing is conducted and some are found to be Covid-19-negative."

The number of deaths/confirmed cases is or is not equal to the number of deaths/ estimated cases?

welll.....

If you answered equal to, your are an NPC or shill pushing the coronahoax, if you said not equal to, then you can see the death rate for the influenza is higher! pic related

remember how the FBI to this day never counted the deaths at Sandy Hook?
They don't fake the number of deaths for disease either, they fake what they attribute the death too, so an asymptomatic carrier that test positive for covid-19 will still be attributed to the meme disease(covid-19/swine flu etc) of the moment even if they died of the flu at 80. However the total deaths from disease worldwide, in the US etc, won't change due to the covid-19 hoax.

During the AIDS hoax in Africa, the total deaths from disease did not increase after AIDS, they just attributed asymptomatic deaths who tested positive as AIDS(meme disease) deaths even when they died of other diseases like malaria etc.

H1N1 had 565,000deaths/12months=47000 deaths per month lasted for one year.

coronahoax has 11000deaths/2months=3700deaths per month,

so why no school closings in 2009? because the internet is more censored after sandy hook and other mass casualty hoaxes, in 2009 they would have been exposed by the once vibrant truth community which had exposed 911.

even the MSM is starting to question the validity of corona panic

https://www.bbc.co.uk/news/health-51979654

>The figures for coronavirus are eye-watering. But what is not clear - because the modellers did not map this - is to what extent the deaths would have happened without coronavirus.

>Every year more than 500,000 people die in England and Wales: factor in Scotland and Northern Ireland, and the figure tops 600,000.

>The coronavirus deaths will not be on top of this. Many would be within this "normal" number of expected deaths. In short, they would have died anyway.

>It was a point conceded by Sir Patrick at a press conference on Thursday when he said there would be "some overlap" between coronavirus deaths and expected deaths - he just did not know how much of an overlap.

The COVID-19 PCR tests are for genes that if found individually result in a negative test, but found together result in a positive test. So one false positive is negative, but two false positives makes it positive. How accurate are these tests? We have no reference to know if someone recieves a false positive, or if the tests are accurate. No one can be sure they have the virus. 86% of infected never show symptoms. It's just like the HIV/AIDS hoax!

The chances of a virus mutating across species is ZERO, and across multiple species even less. It has never happened, never will happen, and never could happen. The only way humans can get a virus or flu from another species is if it is injected into them, period. And the chances of it going across species multiple times? It can not happen, ever. Dogs, cats, sheep, pigs, and others have tested positive for this COVID-19. It's 100% impossible. All signs point to the testing being false positive. How many times are we going to fall for this?

It's exactly like the HIV hoax. West Nile, SARS, AIDS, and Hepatitis C are all invented by the CDC and WHO. The testing is even similar to HIV, which is fake. The statistics make ABSOLUTELY NO SENSE.

Watch this documentary House of Numbers on how the CDC and world governments invented the AIDS epidemic out of nowhere: https://youtu.be/BsT4GrimfLQ

Thousands of people died to the h1n1 vaccine. The spanish flu was created by vaccinations. All viruses are symbiotic in that they detoxify the body to prevent aging, especially in the respiratory system. They have been evolving with us for billions of years. They are manufactured within the cells. They are not foreign invaders that hijack your cells. That is fantasy. They are as much a part of us as our immune system. We have never proven viral infections are contagious. ANY deadly virus is either man-made or made-up

Do NOT get tested. Do NOT take any drugs they give you. And for the love of jesus christ DO NOT GET VACCINATED.

Why is it that since this all started there hasn't been any shootings? No white vans running over people? No school children sniped by some maniac? What about the Amazon and Austrlaian fires? Wheres all the dead animals and catastrophic consequences for humanity?

Really makes you think...

but, while I'm not saying COVID19 killed them, you have to wonder... what did? Not only that but, does that mean our government and the other governments of the world infected and killed thousands of people for a hoax? With what? Why? Population control?

I drive past the new covid testing area in New Jersey everyday on my way to work. It just opened today. They're giving out the free virus tests that people are supposedly fighting so hard to get their hands on. When I drove past about 2 hours ago, there was not a single fucking car in the line. Nobody wants these fucking stupid tests. Tomorrow I will take a picture as I drive by.

Funny enough, not too far from that area is a place that the locals affectionately know as 'Islamberg'. Otherwise called Hancock, NY.
Then, last week, someone set fire to a Hasidic "bungalow colony". They were supposed to be back from the city by now, think a bunch made it out.
Also, I'm not shocked to see there is basically zero panic going on where I am. Which is not the city.

you test positive for kike manipulation
the cure is pic related, no increase in total sickness or death, they are just attributing what sickness and death exists every year to thier meme covid test, China healed itself by changing the test to test negative

China has no new cases because the changed the test, now the test is designed to not detect anything , thus phasing out the hoax.

https://www.cnn.com/2020/02/21/health/coronavirus-reported-cases-covid-19-change-intl/index.html

the World Health Organization (WHO) reacted to the change in their Friday situation report, noting: "Some previously reported 'clinically diagnosed' cases are thus expected to be discarded over the coming days as laboratory testing is conducted and some are found to be Covid-19-negative."

Everything is gone at the stores, places are closed, people are quarantining and doing fuck all and yet, not a single person I have talked to has it or knows someone else who has it. There has been no panic over the hospitals here being overloaded, or in any of the surrounding towns, or even the hospitals in the city over. This is just bullshit. Plain and simple.
